

SECONDARY INFECTIONS TRIGGERED BY THE ALLERGY/HORMONES

Otitis (ear infections)

Allergy Ears - no infection yet

Waxy Ears - bacterial and yeast infection mild infection

Liquid **Pus** in Ears - Pseudomonas otitis severe infection

Folliculitis (Hair follicle infection - **crusting-red-papular rash**)

Bacteria (pyoderma)

Demodicosis (hair follicle mites)

Dermatophyte (hair follicle fungal infection)

Yeast infection (Malassezia yeast) (**Fritos** smell)

Mild - red, waxy, itchy, neck/arm-pits/stomach

Severe - **elephant skin**, hyperpigmentation (black)

Podo-Dermatitis (feet and toes goo or blisters)

Allergy feet - goo in-between the toes

Blisters in-between toes (Ingrown Hairs)

Foot pad sores (Lupus-like immune)

MAIN ALLERGY/HORMONE DISORDER TRIGGERING INFECTIONS

Allergy

Pollen/Grass/Indoor allergies - **foot licking**, arm-pits, face, ears

Food Allergy - **Butt** scooting, Anal glands, Frequent poops, **GI** upset, Sensitive stomach, Gas (flatulence), Ear infections

Insect Allergy (mites, mosquitoes, chiggers, midges, fleas) - **Lumbar-back**, rear legs, tail, **HOT-SPOTS**, pineal-pedal reflex

Hormone Imbalance

Cushing's Syndrome (increased drinking/urination/appetite, pot-belly)

Hypothyroid (lazy, weight gain, dull-waxy haricot, skin infections)

Immune-mediated Disease (Lupus, Pemphigus)

Nasal Planum +Pinnae + Pads (all 3 together)

Total body crusting papular rash (non-folliculitis)

Sebaceous Adenitis (Poodle & Doodles mixes) - total body dry scale and crusts

Follicular Casts

Lumps, Bumps, Draining-Tracts

Tumors

Old Dog Warts - sebaceous adenoma

Lipoma - fat-cell tumor

Fibroma - scar-tissue tumor

Mast Cell Tumor

Deep Infection

Blasto, Histo, Pseudomonas, Nocardia, Mycobacteria, Actinomyces

_____%

Allergy, Dermatology, and Otology

PET's NAME: _____

PATIENT SYMPTOMS AND HISTORY

Current Age: _____ Age when symptoms started: _____

Breed: _____ Weight: _____ lbs

Any other dogs or cats at home: yes no Dog-park/Daycare: yes no

Do you have wildlife in the yard: yes no **ITCH SCORE ok 0 --- 5 ---- 10 bad**

Skin Symptoms (circle answer)

Do they Itch, Lick or Chew: yes no

Did the problem: suddenly start or slowly got worse

Does the skin and itch get better and worse: yes seasonal no

Which is worse: Front half of the body Back half of the body Same-equal

Do they get **Hot-Spots** and big sores: yes no

Do they lick/chew their **feet/toes**: yes no

Do they have **butt** scooting (itchy butt): yes no

How many **poops** do they do daily: 1 2 3 4 many

Do they have **ear** problems: yes no

Do they have any **rash or crusts**: yes no Where: _____

Has their activity level changed: yes no **Weight increase:** yes no

Treatments and Medications

Current Heart-worm prevention: _____

Current Flea and Tick prevention: _____

How often do they get a bath: _____

What food and treats do you give: _____

What Vitamin/Joint supplements: _____

What oral medications have been given:

Antihistamine Apoquel Steroids Antibiotics Yeast medication

Have **Cytopoint** Injection/shots been tried: yes no

Have **Steroid** injection/shots been tried: yes no
